Vermont
145115

Line 510: Service Quality Reporting/Consumer Protection Rules Compliance

Telephone Operating Company of Vermont LLC d/b/a FairPoint Communications, hereby certifies that it is complying with applicable service quality standards and consumer protection rules. The Company complies with service quality and consumer protection provisions under state law, rule or Board Order. These provisions include, but are not limited to, the following: (1) filing a Basic Local Exchange Service Tariff pursuant to the requirements of the Vermont Public Service Board's Final Order in Docket No. 7724 (allowing for the detariffing of Retail Services except BLES) which discloses rates, terms and conditions of BLES service to customers; (2) compliance with state consumer protection provisions relating to Customer Services as identified in VT PSB Rule 7.600, compliance with provisions for Quality of Service as identified in VT PSB Rule 7.600, , compliance with customer Inquiry procedure as identified in VT PSB Rule 7.600, compliance with Dispute standards as identified in VT PSB Rule 7.600 (3) compliance with truth-in-billing requirements; and (4) compliance with Federal CPNI rules, Red Flag Rules and other applicable federal and state requirements governing the protection of customers' privacy.

In establishing this certification in its 2005 ETC Order,¹ the FCC found that an ETC must make "a specific commitment to objective measures to protect consumers." ² The Commission found that for wireless ETCs, compliance with CTIA's Consumer Code for Wireless Service would satisfy this requirement and that the sufficiency of other commitments would be considered on a case-by-case basis. In this context, the FCC stated, "to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement."³

¹ Federal-State Joint Board on Universal Service, CC Docket No. 96-45, Report and Order, FCC 05-46 (rel. Mar. 17, 2005) ("2005 ETC Order").

² *Id.* at para. 28.

Telephone Operating Company of Vermont LLC d/b/a FairPoint Communications report on the service quality performance areas as established in the Final Order in Docket No. 5903, dated July 2, 1999. The Performance Areas are (a) Network Trouble Report Rate; (b) Percentage of Troubles Cleared Within 24 Hours Residence and Business - Out of Service; (c) Call Answer Time - Residence; (d) Installation Appointments Met - Residence; (e) Installation Appointments Met- Business; (f) Average Delay Days for Missed Appointments - Company Reasons - Residence; (g) Average Delay Days for Missed Appointments - Company Reasons - Business; (h) Network Reliability 1) Service outage: # of events 2) Interoffice facility failure: # of events 3) Signaling system failure: # of events; and (i) Special Services 1) On-time provisioning 2) Mean time to repair.

Each Performance Area has Baseline Standards and Action Level Report triggers. If a provider triggers the Action Level Report in any quarter or in any 5 or more months in a calendar year, the provider must provide the Board with a full explanation for the failure in addition to a plan and timetable for correcting the problem giving rise to the failure. Any penalty assessed for failure to meet the Baseline Standards as described above are assessed in accordance with 30 V.S.A. § 30.

Telephone Operating Company of Vermont LLC triggered the Action Level Report for its quarterly performance in "Percentage of Troubles Cleared within 24 Hours Residence and Business - Out of Service" in its second and third quarter 2013 reporting under this plan. All other baseline standards were met.

If a customer has a concern about their FairPoint Communications' service or billing, he/she can contact repair service, technical support or customer service with information found on their billing statement. Customers may also contact agencies, through information posted in the phone directory, website, and tariff pages. All consumer complaints whether from Attorney Generals' offices, Public Utility Commissions, Better Business Bureaus, Federal Communications Commission and all other agencies are sent to the FairPoint Communications' Maine office via U.S. Mail or by electronic mail at consumer@fairpoint.com. The complaints are directed to the appropriate responsible Company Team member within FairPoint Communications for resolution and response to the customer.

Form 481 Line 610: Functionality in Emergency Situations

Business Continuity Plan Overview

Introduction

FairPoint Communications, Inc. ("FairPoint") is committed to maintaining a vigilant state of disaster preparedness for the interests of our customers, stockholders, employees and other critical stakeholders.

The purpose of our Business Continuity Plan (BCP) is to define the disaster preparedness and recovery protocols and procedures required to restore FairPoint's critical business support functions, inside and outside plant systems and operations within FairPoint's operating footprint.

BCP components detail FairPoint's procedures for preparing for and responding to an emergency situation affecting our ability to deliver core services to our customers and our ability to meet legal dictates, and regulatory requirements.

This document discusses the following:

- BCP Scope & Structure
- Recovery Strategies and Logistics
- Plan Maintenance and Exercising

BCP Scope

FairPoint's business continuity response planning is concentrated on two critical operational areas:

- Customer Interfacing – It is recognized that a "business impact" only occurs when an external-interfacing element is disrupted. In essence, this means that if FairPoint experiences a disruptive event, but one that does not breach the outer-shell of the FairPoint operation and interrupt critical customer services, customer product or other external end-user, then it does not have a business impact, as defined by the BCP
- Infrastructure Integrity – Without critical infrastructure systems, the ability for all other FairPoint business operations (back/front office) can come to a halt. It is these infrastructure systems that provide the critical human-factor of our customer-interfacing services. Critical infrastructure would address such services / systems as, building space for staff, service utilities, telecom network, IT network, etc.

The BCP has been developed to assure the continuity of critical customer interfacing services and systems should a physical incident or workforce disruption event occur, which affects:

- IT/IS
- Administrative and Support Operations
- Inside and Outside Plant Operations
- NOC (Network Operations Center)
- E-9-1-1
- Dispatch
- Repair Center

FairPoint has developed response / recovery strategies addressing physically disruptive incidents and workforce related disruptive incidents (i.e., work-stoppage and pandemic). All response strategies are based on recovery time objectives of those department functions and critical infrastructure systems essential to sustain customer interfacing services.

FairPoint Communications

1 Davis Farm Road
Portland, ME 04103

Bamey Boynton
Director, Operational Risk

BCP Structure

The BCP consists of several components:

- The BCP Manual (an overview of all BCP documents)
- IR Playbooks (addresses the response procedures for Physical and Workforce related events),
- Appendices (the IR Playbook procedures links to these Resources Files)
- Department Recovery Plans (Business and Plant Operations)
- Business Impact Assessments (Business and Plant Operations)

The Event Response diagram below identifies the overall BCP documentation and how a disruption or incident will dictate which path of the BCP will be followed to restore business operations.

Once the incident or disruption occurs, the impact first needs to be quickly assessed to determine whether it is a physically disruptive event (local or regional) ("Physically Disruptive Event") or a workforce disruptive event (work-stoppage or pandemic) ("Work-Force Related Disruptive Event"). The disruption is always focused on critical business operations and services that can impact customer interfacing / deliverables.

EVENT RESPONSE

DRPlan
Documentation

Recovery Strategies and Logistics

Our BCP is based on the premise that FairPoint cannot stop disasters from occurring, but we can address the IMPACT of incidents should they occur. Where possible we will provide risk mitigation measures that will minimize the likelihood of having a serious disruptive incident but in no case can we eliminate all disruptive possibilities. The BCP is triggered by a Disruption Scenario, not a Threat Scenario. FairPoint pre-plans for potential break-points that can result in a customer interfacing disruption and incorporates recovery strategies that will inherently address any potential threat and any resulting business disruption impact. The actual threat (i.e. fire, flood, etc.) is pertinent only with respect to immediate response activities. All subsequent response efforts are focused on the assessment of damages (physical losses and recovery duration) and the implementation of restoration and recovery strategies. The restoration of the business servicing operations and infrastructure systems is based on salvage, replacement of systems and alternate functionality measures, which are pre-defined in the BCP.

Each department has developed a recovery plan based on its critical operations as they pertain to the deliverables they contribute to our customers. FairPoint has triaged the recovery efforts based on the concept of customer servicing impact. Federal and State regulatory requirements have a high level of consideration in

FairPoint Communications

1 Davis Farm Road
Portland, ME 04103

Barnes Boynton
Director, Operational Risk

addition to the business impact concerns. The BCP goal is to minimize the disruption duration as much as is practical and provide a level of risk mitigation that will maintain critical operations.

The Ten Response Phases of Physical Event are:

- Incident Notification
- Visual Damage Assessment
- Incident Stabilization
- Command Center Initiation
- Initial Notifications to Business Departments -- to activate plans
- Primary Site Damage Assessments
- Ready Alternate Restoration Sites
- Primary Site Salvage & Recovery
- Business Restoration Process
- Primary Site Re-established

Plan Maintenance and Exercising

The BCP is a living document. Updates to the plan are ongoing with changes incorporated annually at a minimum. Individual plan components are scenario tested with oversight from FairPoint's Corporate Risk Management Team.

Line 1010 –Voice Service Rate Comparability

The pricing of the company's voice services is no more than two standard deviations above the applicable national average urban rate for voice service, as specified in the most recent public notice, FCC DA14-384 released on March 20, 2014.

For Rates See Attachment: (700) Company Price Offerings (voice)

Form 481 Line 1210- Terms & Conditions for Lifeline Customers

The Telephone Operating Company of Vermont provides a Lifeline Program discount for residence service for eligible low income customers. The Lifeline Program discount is applied to any month to month residence local service, package or bundle offering. The discount is intended to offset the Subscriber Line Charge and local line charge, although eligible packages and bundles may have toll calling included in the pricing for the offering.

The Catalog pages outlining the terms of the Lifeline Program in the Telephone Operating Company of Vermont are attached. The terms and conditions of residential basic local exchange service, package and bundle offerings can be found at <http://www.tariffs.net/fairpoint/tier.asp?cid=1644>.

1.6 Customer Assistance Programs

1.6.1 Lifeline	
A.	Lifeline provides for a reduction in the monthly rate for one residence basic exchange service line furnished at the principal place of residence to a customer designated by the Vermont Agency of Human Services as qualified for the Lifeline program, provided the service originates and terminates in the exchange normally serving the customer's premises.
B.	Liability- The Telephone Company shall not be liable for damages or adjustment for any errors or delays in the application of the rate reduction provided for in the lifeline program which are not the result of its willful misconduct. In the absence of willful misconduct, the Telephone Company shall not be liable for damages resulting from disclosure or publication to any person of any information pertaining to the customer which the Telephone Company possesses or receives as a result of its administration of the Lifeline program.
C.	When a reduction is applied to the rate for service for which a monthly cap applies, the cap is also reduced.
D.	A Lifeline service customer may voluntarily choose to block toll calls and access to interexchange carriers. Blocking is provided to a Lifeline customer without charge.
1.	An eligible customer who elects toll blocking shall not be required to provide a service deposit to initiate Lifeline credit.
E.	Effective April 1, 2012, Lifeline customers will no longer receive federal assistance known as Link-Up toward installation of their network access line.

CHECK the boxes below to note compliance on the five year service quality plan pursuant to 47 CFR § 54.320(a) and, for physically held content, ensuring compliance with the financial reporting requirements set forth in 47 CFR § 54.319(f)(2). Further certify that the information reported on this form and in the documents attached below is accurate.

0010 Progress Report on 5 Year Plan
Milestone Certification (47 CFR § 54.319(f)(2)(i))

0011 Please check the box to confirm that the attached document(s), on line 0012, contains the required information pursuant to § 54.319(f)(2)(i). The center shall provide the number, name, and addresses of community anchor institutions to which began providing access to broadband services in the preceding calendar year.

0012 Community Anchor Institutions (47 CFR § 54.319(f)(2)(i))

0013 Is your company a physically held (NH) carrier (47 CFR § 54.319(f)(2))

0014 If yes, does your company file the NIS annual report

Please check these boxes to confirm that the attached document(s), on line 0017, contains the required information pursuant to § 54.319(f)(2) compliance requires:

0015 Electronic copy of their annual NIS reports (Operating Report for Telecommunications Borrowers)

0016 Document(s) for Balance Sheet, Income Statement and Statement of Cash Flows

0017 If the response is yes on line 0014, attach your company's NIS annual report and all required documentation

0018 If the response is no on line 0014, is your company audited?

If the response is yes on line 0018, please check the boxes below to confirm your submission, on line 0020 pursuant to § 54.319(f)(2), contains:

0019 Either a copy of their audited financial statements or (2) a financial report in a format comparable to NIS Operating Report for Telecommunications Borrowers.

0020 Document(s) for Balance Sheet, Income Statement and Statement of Cash Flows

0021 Management letter issued by the independent certified public accountant that performed the company's financial audit.

If the response is no on line 0018, please check the boxes below to confirm your submission, on line 0025 pursuant to § 54.319(f)(2), contains:

0022 Copy of their financial statement which has been subject to review by an independent certified public accountant or (2) a financial report in a format comparable to NIS Operating Report for Telecommunications Borrowers.

0023 Underlying information subjected to a review by an independent certified public accountant

0024 Underlying information subjected to an officer certification.

0025 Document(s) for Balance Sheet, Income Statement and Statement of Cash Flows.

0026 Attach the worksheet listing required information

FCC Form 481

Line 100- Service Quality Improvement Reporting
{47 CFR 54.313(a)(1)}

In the FCC's Public Notice DA 14-951, released May 1, 2014, the FCC waived the requirement for price cap ETCs to file a five-year plan.¹

¹ The Public Notice stated, in relevant part:

We now grant a waiver of this requirement for price cap ETCs for an additional year. Because the Bureau just finalized the Connect America Cost Model, and price cap carriers have not yet had the opportunity to make a state-level commitment for Connect America Phase II, we find that it is not in the public interest to require price cap ETCs to file new five-year plans in 2014 for the same reason as last year: they do not yet know which areas they will be serving in the future.

YCOM Networks, Inc.
Washington
522453

Line 510: Service Quality Reporting/Consumer Protection Rules Compliance:

YCOM Networks, Inc. hereby certifies that it is complying with applicable service quality standards and consumer protection rules. The Company complies with service quality and consumer protection provisions under state law. These provisions include, but are not limited to, the following: (1) filing a Local Exchange Tariff pursuant to the requirements of The Washington Public Service Commission which discloses rates, terms and conditions of service to customers; (2) compliance with state consumer protection provisions relating to Customer Services as identified in the Code of State Regulations, compliance with provisions for Quality of Service as identified in the Code of State Regulations, compliance with Service Objectives as identified in the Code of State Regulations, compliance with customer inquiry procedure as identified in the Code of State Regulations, compliance with Dispute standards as identified in the Code of State Regulations; (3) compliance with truth-in-billing requirements; and (4) compliance with Federal CPNI rules, Red Flag Rules and other applicable federal and state requirements governing the protection of customers' privacy.

In establishing this certification in its *2005 ETC Order*,¹ the FCC found that an ETC must make "a specific commitment to objective measures to protect consumers."² The Commission found that for wireless ETCs, compliance with CTIA's Consumer Code for Wireless Service would satisfy this requirement and that the sufficiency of other commitments would be considered on a case-by-case basis. In this context, the FCC stated, "to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement."³

YCOM Networks Inc. is not subject to Service Quality reporting requirements in Washington.

If a customer has a concern about their FairPoint Communications' service or billing, he/she can contact repair service, technical support or customer service with information found on their statement. Customers may also contact agencies, through information posted in the phone directory, website, and tariff pages. All consumer complaints whether from Attorney Generals' offices, Public Utility Commissions, Better Business Bureaus, Federal Communications Commission and all other agencies are sent to the FairPoint Communications' Maine office via U.S. Mail or by electronic mail at consumer@fairpoint.com. The complaints are directed to the appropriate responsible Company Team member within FairPoint Communications for resolution and response to the customer.

¹ *Federal-State Joint Board on Universal Service*, CC Docket No. 96-45, Report and Order, FCC 05-46 (rel. Mar. 17, 2005) ("2005 ETC Order").
